The examples cited in most modern works are, in great part, drawn from foreign sources, so that the author has felt the advisability of setting before the American public in some detail the fact that there can be found in the United States a varieties of weather. The delightful climate of the Riviera, the burning heats of the Sahara, and the eternal frosts of Siberia find their parallels within the broad confines of our Union. The violence of our tornadoes and hurricanes, the extremes of heat and cold, the absence of rain or its enormous superabundance, the number of storms, and the size of hail stones, together with the prolonged heated terms of summer...
